

A Deep Dive Into

Your AI Roadmap

But, the most important
quote...

“You're not going to lose your job to
an AI, but you are going to lose your
job to somebody who **uses** AI.” -

Jensen Huang CEO of Nvidia

2

Your AI Roadmap

By Role

Roles in AI

Understand the difference between role and title

Python Developer

Data Analyst

AI Engineer

Data Scientist

MLOps Engineer

3

Python Developer

Python Developer

**Python for Data
Science**

**Vibe Coding & AI Pair
Programming**

Python For Data Science

Basics, Data Structures,
and Conditional
Statements

1

Functions, Lambda
Functions, Random,
File Handling

3

Working with APIs and
Databases in Python

5

**Resume-worthy
Python Project**

2

Loops, List
Comprehensions, Error
Handling and Virtual
Environments

4

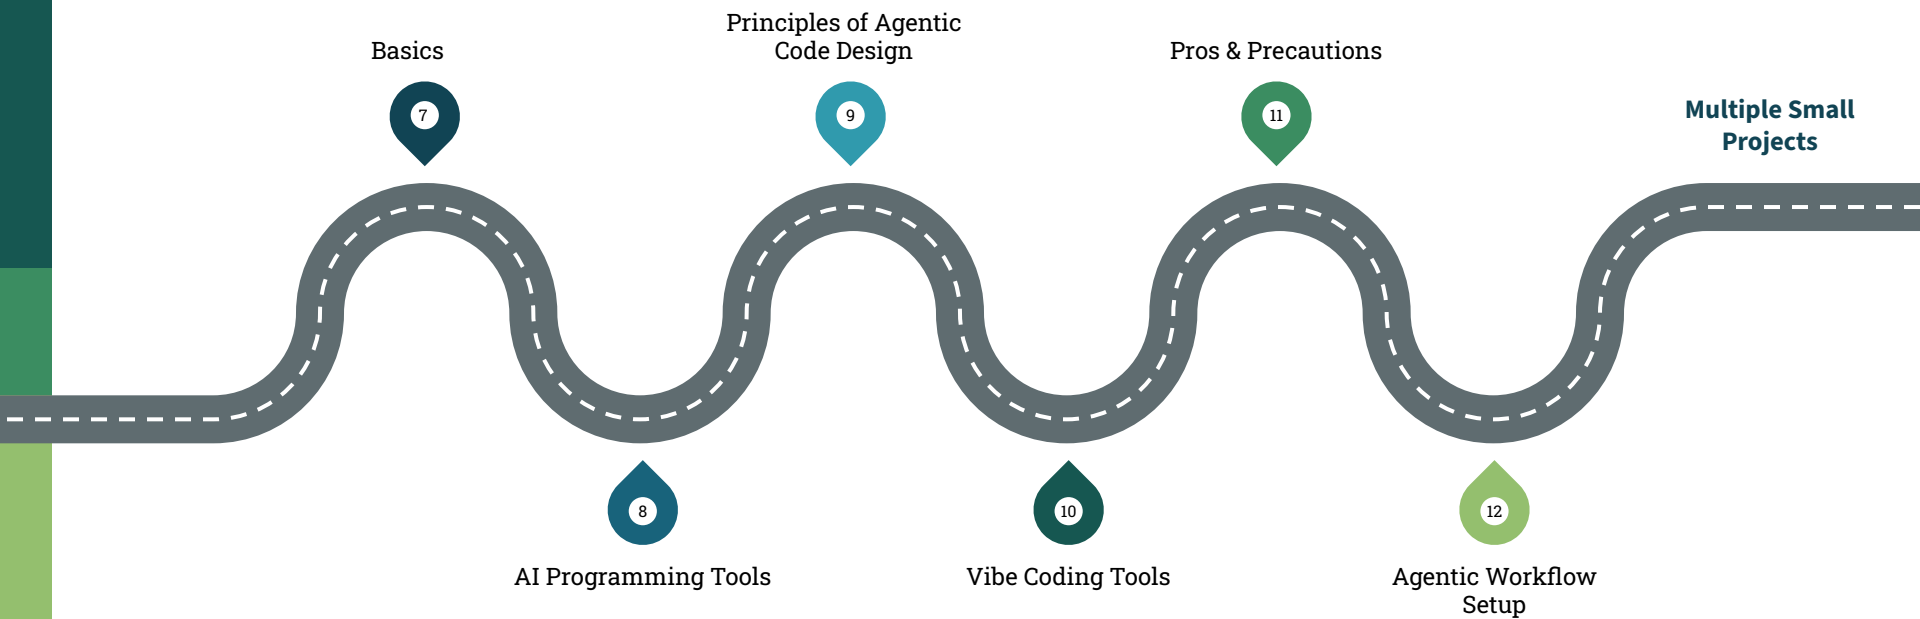

Classes and
Inheritance,
Multi-Threading

6

Testing Frameworks,
Pythonic Coding and
Style

Vibe Coding & AI Pair Programming

4

Data Analyst

Data Analyst

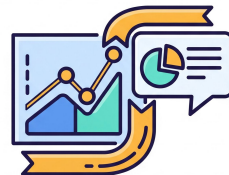

**Python for Data
Science**

**Data Analytics &
Business Intelligence**

**Vibe Coding & AI Pair
Programming**

Storytelling with Data

Python For Data Science

Basics, Data Structures,
and Conditional
Statements

1

Functions, Lambda
Functions, Random,
File Handling

3

Working with APIs and
Databases in Python

5

**Resume-worthy
Python Project**

2

Loops, List
Comprehensions, Error
Handling and Virtual
Environments

4

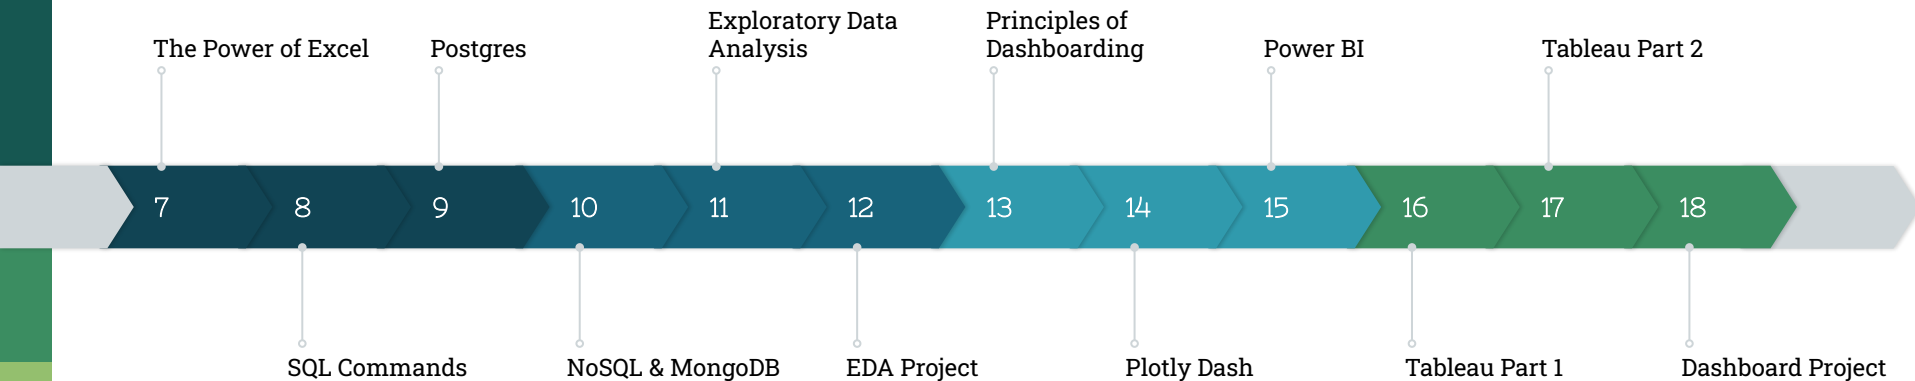

Classes and
Inheritance,
Multi-Threading

6

Testing Frameworks,
Pythonic Coding and
Style

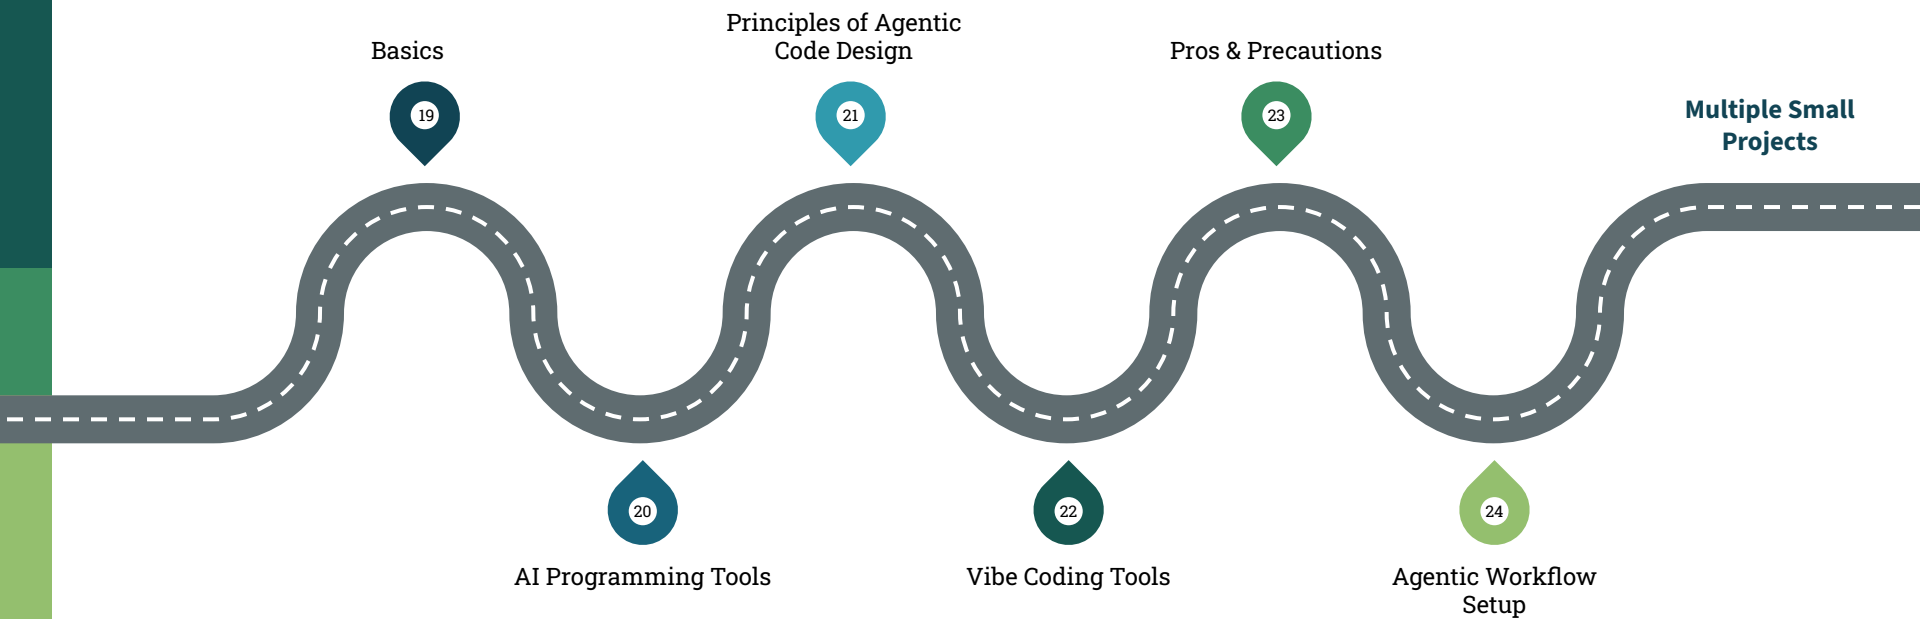

Data Analytics & Business Intelligence
